READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DEPARTMENT OF ENVIRONMENTAL PROTECTION
[25 PA. CODE CH. 218]

Corrective Amendment to 25 Pa. Code Chapter 218

The Department of Environmental Protection has discovered a discrepancy between the agency text of 25 Pa. Code Chapter 218 (relating to fees), as deposited with the Legislative Reference Bureau and the official text published at 38 Pa.B. 6275 (November 15, 2008). The addition of § 218.11a (relating to special provisions for calculating fees during agreement state transition period) was inadvertently omitted from the ordering language at 38 Pa.B. 6278.

Therefore, under 45 Pa.C.S. § 901: The Department of Environmental Protection has deposited with the Legislative Reference Bureau a corrective amendment to 25 Pa. Code Chapter 218. The corrective amendment to 25 Pa. Code Chapter 218 is effective as of January 1, 2009, the effective date stated in the ordering language at 38 Pa.B. 6278.

The correct version of 25 Pa. Code § 218.11a appears in Annex A.

Annex A

TITLE 25. ENVIRONMENTAL PROTECTION

PART I. DEPARTMENT OF ENVIRONMENTAL PROTECTION

Subpart D. ENVIRONMENTAL HEALTH AND SAFETY

ARTICLE V. RADIOLOGICAL HEALTH

CHAPTER 218. FEES

§ 218.11a. Special provisions for calculating fees during agreement state transition period.

(a) The fees for the NRC licenses that are transferred to the Commonwealth on the date the Commonwealth becomes an agreement state will be invoiced on the license's next anniversary date.

(b) During the first year after the date the Department attains agreement state status, the annual fee for each NRC license transferred to the Commonwealth will include a proportional amount, based on the schedule of fees in Appendix A, for the period from the date agreement state status is attained until the license's next anniversary date, in addition to the amount assessed for the year following the license's anniversary date.

(c) In the event that the Commonwealth attains agreement state status prior to January 1, 2009, the provisions of this section and § 218.11 and Appendix A (relating to registration, renewal of registration and fees; and fees for radioactive material licenses) will be applied retroactively to NRC licenses transferred to the Commonwealth.

A. *Effective Date*

The final-form rulemaking will go into effect on April 1, 2009.

B. *Contact Person*

For further information on the final-form rulemaking, contact Laurie E. Shepler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The amendments to § 61.2 (relating to Delaware River and River Estuary) are published under the statutory authority of section 2102(b) of the code (relating to rules and regulations).

D. *Purpose and Background*

The final-form rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. *Summary of Changes*

Since 1992, during the time period when Delaware River and Estuary striped bass were in restoration mode, there has been an April and May closure to the harvest of striped bass from the spawning grounds in Pennsylvania, New Jersey and Delaware. The Commission's regulation in § 61.2 defines the segment to which the closure applies as extending from the Pennsylvania/Delaware State line upstream to the Calhoun Street Bridge, which is located just upstream from the head-of-tide and joins Morrisville, PA with Trenton, NJ.

In 1997, the Atlantic States Marine Fisheries Commission (ASMFC) declared that the Delaware River stock of striped bass had been restored to historical population levels based on high juvenile recruitment, high spawning stock biomass and low fishing mortality. Despite being restored, management of the fishery within the Basin states remained conservative with high size limits (28 inches), low creel limits (two fish per day) and spawning ground closures to harvest. In this Commonwealth, this meant that the season downstream from Calhoun Street Bridge closed on April 1, just as the adult striped bass population was building, and reopened on June 1, just as the bulk of the adult striped bass population had emigrated from this Commonwealth. This Commonwealth's anglers were given little opportunity to harvest striped bass, and striped bass angling when fish were most abundant was discouraged by the season closure.

Delaware River and Estuary striped bass harvest has been low. During the 2002 four state creel census, only 582 striped bass were harvested in the stretch that

extended from the Delaware River Memorial Bridge near Wilmington, DE upstream to the river's branches in New York. The Commonwealth's tagging data supported this observation of low harvest, particularly from this Commonwealth. Of the 2,872 striped bass that were tagged in the Delaware Estuary spawning grounds between Pennsylvania and New Jersey from 1995-2007, only 34 tags were returned from Pennsylvania's waters. Observations by the Commission's waterways conservation officers and biologists have been that the vast majority of striped bass caught in this Commonwealth are yearlings, 2-year olds, and some 3-year olds caught in late spring and summer as by-catch in other fisheries and as a targeted catch and release fishery in the tidal and nontidal river.

Male striped bass are abundant during April and May on the spawning grounds and about 90% are shorter than the 28 inch length limit. Furthermore, very few sublegal female striped bass are present on the spawning grounds. This Commonwealth's anglers desire an opportunity to take advantage of this restored striped bass population and the potentially excellent fishing that it could provide. Past regulatory and habitat protection efforts by the Commission have largely benefited coastal anglers and anglers outside of this Commonwealth.

The Commission therefore proposed that an April and May fishery be established in the seasonally closed portions of the Delaware River and Estuary that is designed to specifically target mature male striped bass. The Commission also proposed that this fishery be regulated with a 20 inch to 26 inch slot limit from which two fish per day can be harvested during April and May. The Commission further proposed that there will be a 28 inch length limit and two fish per day creel limit in all other months of the year, and there will be no closed season. Regulations for the remainder of the river will remain unchanged.

The Commission coordinated this proposal with the State of Delaware, which took the lead in data analysis and reporting. The two states have made similar slot and creel limit proposals that will apply to different months of the year. Delaware's proposal will target male striped bass in summer and fall that have emigrated from the spawning grounds and taken up residency in Delaware. ASMFC's Striped Bass Management Board approved both proposals on October 20, 2008.

The Commission adopted the amendments to § 61.2 as set forth in the notice of proposed rulemaking.

F. Paperwork

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no new costs on the private sector or the general public.

H. Public Comments

A notice of proposed rulemaking was published at 38 Pa.B. 6935 (December 20, 2008). The Commission received a total of 23 public comments regarding the proposal. One comment that was received before the start of the official comment period supported the proposal. The Commission received 21 comments during the official comment period. Nineteen favored the proposal, and two opposed it. Two of the favorable comments also would like to see the April–June season extended to the upper Delaware River, with one comment suggesting a 12–20

inch limit for harvest on the upper Delaware. The other comment suggested a smaller slot limit during April–June for the entire river of 16–20 inches. One commentator thought that this proposal will help improve herring populations. One of the commentators who opposed the proposal was concerned that it will lead to greater mortality of female striped bass. After the official comment period, the Commission received one comment supporting the proposal. Copies of all public comments were provided to the Commissioners.

C. Statutory Authority

The amendments to §§ 75.2 and 75.3 (relating to threatened species; and candidate species) are published under the statutory authority of section 2305 of the code (relating to threatened and endangered species).

D. Purpose and Background

The final-form rulemaking is designed to improve, update and modify the Commission's threatened and candidate species lists. The specific purposes of the amendments are described in more detail under the summary of changes.

E. Summary of Changes

Commission staff recently reevaluated the listing/delisting process for endangered, threatened and candidate species and reviewed recent fish survey data, especially data collected by means of benthic trawling, which is a relatively new method used in the Commonwealth's rivers. Accordingly, the Commission proposed five fish species for delisting from the existing threatened or candidate species lists. The Fishes Technical Committee of Pennsylvania Biological Survey (PABS) reviewed the species proposed to be delisted and concurred with the proposed delisting.

(1) Smallmouth Buffalo (*Ictiobus bubalus*): The smallmouth buffalo is a large, deep-bodied sucker of the Ohio Basin that inhabits deeper sections of large rivers. It occurs in the Lake Michigan drainage and Mississippi River basin from Pennsylvania and Michigan to Montana and south to the Gulf of Mexico. It is secure or common across its range. In this Commonwealth, it inhabits the Ohio River, Monongahela River and lock and dam section of the Allegheny River.

The smallmouth buffalo has recently become common in the Ohio River and can be collected with regularity in the Monongahela and Lower Allegheny Rivers. Criswell collected in excess of 100 individuals during a single night of electrofishing on the Ohio River in 2003 and Ohio River Sanitation Commission personnel collected 49 during a survey in 1992. California University of Pennsylvania personnel collected 17 specimens on an electrofishing run on the Monongahela River in 2003, and 16 were collected by Commission staff in Pool 8 of the Allegheny River in July 2004. Argent and Kimmel (2003) considered the smallmouth buffalo common in several pools they sampled in the Allegheny and Ohio Rivers. Field surveys conducted throughout the historic Pennsylvania range since 1990 have documented a significant expansion in range and population size compared to pre-1990 information. The smallmouth buffalo is absent from the majority of twentieth century collection literature; however, recent electrofishing and gill netting surveys have documented a continuous distribution throughout the Ohio River and lower reaches of the Monongahela and Allegheny Rivers in this Commonwealth.

This species was run through the Commission's fish species documentation and objective listing/delisting criteria and met Criteria A.1. (Population reduction) that the population is increasing, Criteria B.3. (Distribution & Trends) that the distribution is greater than 150 miles of river/stream, and criteria B.4. (Summed Proportion of Watersheds Occupied), which compares all fish species documented occurrences and shows that this species is no longer rare in this Commonwealth. The Fishes Technical

Committee of the PABS reviewed the Heritage rank of the smallmouth buffalo and recommended it be changed to "apparently secure" (S4) status—uncommon but not rare, and usually widespread in the State. The PABS Committee additionally recommended "delisting" status based on the aforementioned data and apparent commonality of the species in this Commonwealth. Enough information is available to determine that it is secure in the State at present and to justify the removal of smallmouth buffalo from the Commonwealth's list of threatened fishes. Therefore, the Commission proposed that smallmouth buffalo be removed from the Commonwealth's list of threatened species.

(2) Longhead Darter (*Percina macrocephala*): The longhead darter is a small fish species that prefers warm rivers and large streams and occupies a wide array of habitats, including riffles and runs over substrates of clean gravel, cobble, rubble and boulders, especially at the interface areas between strong current and backwash. It also occurs in pools with both clean bottoms of gravel and rubble and those covered with silt or detritus, or both. The longhead darter occurs in the Ohio River drainage from New York to North Carolina, and west to Kentucky and Tennessee, but it is rare and highly localized in these locations. In this Commonwealth, it occurs throughout French Creek and the Allegheny River, including the lowermost sections of a number of tributaries in Crawford, Erie, Forest, McKean and Warren Counties. It formerly occurred in the Monongahela River drainage.

The longhead darter has increased its range considerably during the past 25 years. Although Cooper (1985) did not report this taxon in this Commonwealth upriver of Allegheny Reservoir, it has been collected with frequency in the upper Allegheny River as far as Roulette, Potter County, and in Cole and Potato Creeks in McKean County. It was also collected with regularity in the middle Allegheny River between the Allegheny Reservoir and the influence of the lock and dam system near East Brady, Clarion County, and in French Creek during the period 1990—present. The first recent records in the Lower Allegheny River are those of single specimens from Armstrong County in 1986 and 1987. Argent and Kimmel (2003) reported the longhead darter from Allegheny County and it was collected by Commission staff in Pool 8 of the Allegheny River in 2004 and by R. Spear during benthic trawl trials in 2005 in Pools 6—8.

Field surveys conducted throughout the historic Pennsylvania range since 1985 have documented a significant expansion in range and population size compared to pre-1985 information. Although historically represented by limited, widely scattered collections consisting of only a single or few individuals, recent research has documented continuous distribution throughout French Creek from the New York state line in Erie County to its mouth in Venango County, and the Allegheny River from Potter County downstream to Allegheny County, as well as in the lower sections of a number of larger tributaries to both. Observations of more than 100 individuals at a single station have been reported on at least three occasions, and this taxon is now locally common to abundant in both waterways.

This species was run through the Commission's fish species documentation and objective listing/delisting criteria and met Criteria A.1. (Population reduction) that the population is increasing. The Fishes Technical Committee of PABS reviewed the Heritage rank of the longhead darter and recommended it be changed to "apparently secure" (S4) status—uncommon but not rare, and usually

widespread in the State. The PABS Committee additionally recommended "delisting" status based on the aforementioned data and apparent commonality of the species in this Commonwealth. Enough information is available to make the determination that it is secure in the State at present and to justify the removal of longhead darter from the Commonwealth's list of threatened fishes. Therefore, the Commission proposed that the longhead darter be removed from the Commonwealth's list of threatened species.

(3) Channel Darter (*Percina copelandi*): Channel darters are small fish that occur primarily in clear rivers and large streams over substrates of sand and gravel. They occupy a variety of habitats, including riffles, runs, and pools, lakeshores and sluggish pools with lightly silted bottoms in the Allegheny River. During a study in the Allegheny River, channel darters were found in significantly deeper habitats than other darter species. The Channel Darter occurs in the Great Lakes/St. Lawrence and Ohio River drainages from southern Quebec and Vermont to Michigan, and south to Kentucky and Tennessee. A disjunct population exists in the Arkansas, Ouchita and Red River drainages in the southern Midwest, and additional isolated populations occur in Mississippi/Louisiana and Alabama. In this Commonwealth, they are distributed throughout most of the Allegheny and Ohio Rivers. Also a few records exist from the Lake Erie drainage.

The channel darter is locally common in sections of the Allegheny River where clean gravel substrate occurs. Recent benthic trawl surveys of the "Three Rivers" area indicate that the channel darter is the most common darter species within samples. Abundance in the wadeable Upper Allegheny River and tributaries appears to be low, and abundance is uncertain in the Lake Erie drainage. The channel darter is absent from the majority of twentieth century collection literature; however, recent electrofishing and benthic trawl surveys have documented a mostly continuous distribution throughout the Ohio and Allegheny Rivers within this Commonwealth.

This species was run through the Commission's fish species documentation and objective listing/delisting criteria and met Criteria B.3. (Distribution & Trends) that the distribution is greater than 150 miles of river/stream. The Fishes Technical Committee of PABS reviewed the Heritage rank of the channel darter and recommended it be changed to "apparently secure" (S4) status—uncommon but not rare, and usually widespread in the State. The PABS Committee additionally recommended "delisting" status based on the aforementioned data and apparent commonality of the species in this Commonwealth. Enough information is available to determine that it is secure in the State at present and to justify the removal of channel darter from the Commonwealth's list of threatened fishes. Therefore, the Commission proposed that channel darter be removed from the Commonwealth's list of threatened species.

(4) River Redhorse (*Moxostoma carinatum*): The river redhorse is a large sucker that inhabits rivers and large creeks. It prefers clearer waters and gravelly or rocky substrates in flowing pools and runs. The river redhorse's enlarged pharyngeal arches and molariform teeth make it well suited for crushing the shells of mollusks, an important component of its diet. The river redhorse occurs in the St. Lawrence, Great Lakes and Mississippi River drainages from southern Quebec to central Minnesota and western Iowa, south to northern Alabama and eastern Oklahoma, and on the Gulf Slope from Florida to

Louisiana and Mississippi. In this Commonwealth, it occurs in the Ohio River drainage, including the Allegheny, Beaver, Monongahela, Ohio, Shenango and Youghiogheny Rivers.

Although never abundant, the river redhorse can now be collected regularly in the Allegheny and Ohio Rivers and to a lesser extent in the Monongahela River. It was collected recently in the Shenango River as well. This is the first record there since 1933. Its former and present scarcity may be attributed in part to the difficulty in sampling its large river habitat. Field surveys conducted throughout the historic Pennsylvania range since 1990 have documented a significant expansion in range and population size compared to pre-1990 information. The river redhorse is absent from the majority of 20th century collection literature; however, recent electrofishing and gill netting surveys have documented a continuous distribution throughout the Ohio River and lower reaches of the Monongahela and Allegheny Rivers and in Lake Erie within this Commonwealth.

This species was run through the Commission's fish species documentation and objective listing/de-listing criteria and met Criteria A. 1. (Population reduction) that the population is increasing and Criteria B.3. (Distribution & Trends) that the distribution is greater than 150 miles of river/stream. The Fishes Technical Committee of PABS reviewed the Heritage rank of the river redhorse and recommended it be changed to "apparently secure" (S4) status—uncommon but not rare, and usually widespread in the State. The PABS Committee additionally recommended "delisting" status based on the aforementioned data and apparent commonality of the species in this Commonwealth. Enough information is available to determine that it is secure in the State at present and to justify the removal of river redhorse from the Commonwealth's list of candidate fish species. Therefore, the Commission proposed that river redhorse be removed from the Commonwealth's list of candidate species.

(5) Longnose Gar (*Lepisteus osseus*): The longnose gar is a large pelagic fish species with an elongate body, long snout with numerous sharp, needle-like teeth. It prefers medium-sized, low-gradient rivers and large streams, lakes, impoundments, oxbows, and backwaters over a wide variety of substrates. The longnose gar occurs in the Atlantic Slope drainages from New Jersey and Pennsylvania to Florida, the St. Lawrence River, Quebec through Great Lakes (except Lake Superior) and the Mississippi River basin to the Gulf Coast. It also occurs in the Gulf Slope drainages from Florida to Texas. In this Commonwealth, it was historically widespread in the Ohio River drainage, including the Allegheny, Conemaugh, Monongahela and Ohio Rivers, and Conneaut Lake. It also occurs at Presque Isle-Lake Erie, lower Susquehanna River and Delaware River to Monroe County. It has not been taken recently in the Conemaugh or Susquehanna Rivers, and is now considered extirpated from the Delaware River.

The longnose gar has become fairly common in the Ohio River and is taken regularly in the Monongahela River and lower section of the Allegheny River. Criswell and Stauffer (2003) captured approximately 25 specimens in a single gill net during a sampling effort on the Ohio River. Although it has been taken recently in Conneaut Lake, its population status there is not known. The Lake Erie population is considered stable, and longnose gar can be collected regularly in near shore areas and around the mouths of tributaries.

Field surveys conducted throughout the historic Pennsylvania range since 1990 have documented a significant expansion in range and population size compared to pre-1990 information. Recent electrofishing and gill netting surveys have documented continuous distribution throughout the Ohio River and lower reaches of the Monongahela and Allegheny Rivers and in Lake Erie within this Commonwealth.

This species was run through the Commission's fish species documentation and objective listing/delisting criteria and met Criteria A.1. (Population reduction) that the population is increasing and Criteria B.3. (Distribution & Trends) that the distribution is greater than 150 miles of river/stream. The Fishes Technical Committee of PABS reviewed the Heritage rank of the longnose gar and recommended it be changed to "apparently secure" (S4) status—uncommon but not rare, and usually widespread in the State. The PABS Committee additionally recommended "delisting" status based on the aforementioned data and apparent commonality of the species in this Commonwealth. Enough information is available to determine that it is secure in the State at present and to justify removal of longnose gar from the Commonwealth's list of candidate fishes. Therefore, the Commission proposed that longnose gar be removed from the Commonwealth's list of candidate species.

On final-form rulemaking, the Commission adopted the amendments to §§ 75.2 and 75.3 to read as set forth in the notice of proposed rulemaking.

GAME COMMISSION

[58 PA. CODE CH. 147]

Special Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009, meeting, adopted the following rulemaking:

Amend § 147.783 (relating to permit) to authorize the limited use of electronic calls for all hunting and taking activities conducted under a snow goose conservation hunt permit.

The final-form rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 38 Pa.B. 6941 (December 20, 2008).

1. Purpose and Authority

In recent years, continental snow goose populations have experienced a rapid growth in their numbers. This dramatic increase in population size has in turn resulted in extensive, possibly irreversible, damage to arctic and subarctic breeding habitats of the continental snow goose, as well as other bird populations dependant on these habitats. In January 2008, the Commission, working in conjunction with the Federal government, created Chapter 147, Subchapter W (relating to snow goose conservation hunt permit) to define and create the regulatory structure necessary to implement the new snow goose conservation hunt program within this Commonwealth. However, since the adoption of this rulemaking, the Commission has continued to receive extensive public input from various sources including the Susquehanna River Waterfowlers Association, hunters and guides on ways to improve the program. In particular, these sources have strongly encouraged the permitted use of electronic calls during the snow goose conservation hunt, a proven method that is effective in increasing harvest rates. In light of the Commission's continued recognition of the need to dramatically increase the harvest of snow geese in this Commonwealth to assist in the reduction of the overall continental populations, the Commission amended § 147.783 (relating to permit) to authorize the limited use of electronic calls for all hunting and taking activities conducted under a snow goose conservation hunt permit.

Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendment to § 147.783 was adopted under this authority.

2. *Regulatory Requirements*

The final-form rulemaking will amend § 147.783 to authorize the limited use of electronic calls for all hunting and taking activities conducted under a snow goose conservation hunt permit.

3. *Persons Affected*

Persons wishing to hunt snow geese under a snow goose conservation hunt permit within this Commonwealth may be affected by the final-form rulemaking.

4. *Comment and Response Summary*

There were no official comments received regarding this final-form rulemaking.

5. *Cost and Paperwork Requirements*

The final-form rulemaking should not result in any additional cost or paperwork.

6. *Effective Date*

The final-form rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. *Contact Person*

For further information regarding the final-form rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendment adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of this amendment of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 147, are amended by amending § 147.783 to read as set forth at 38 Pa.B. 6941.

(b) The Executive Director of the Commission shall certify this order and 38 Pa.B. 6941 and deposit them with the Legislative Reference Bureau as required by law.

PROPOSED RULEMAKING

DEPARTMENT OF REVENUE

[61 PA. CODE CHS. 151 AND 153]

Amended Report—Corporation Taxes

The Department of Revenue (Department), under section 6 of The Fiscal Code (72 P.S. § 6), proposes amendments to Chapter 151 (relating to general provisions), by adding § 151.14 (relating to amended report); and Chapter 153 (relating to Corporate Net Income Tax), by replacing obsolete language and adding § 153.66 (relating to applicability) to read as set forth in Annex A.

Purpose of Proposed Rulemaking

The purpose of the proposed rulemaking is to provide a procedure for the filing of amended Corporate Tax reports for tax reports governed by the assessment process enacted in Act 119-2006. A new § 151.14 is proposed which reflects the replacement of the Corporate Tax settlement process with an assessment process.

Explanation of Regulatory Requirements

The proposed rulemaking will provide clear instructions for corporate taxpayers filing amended reports. The Department is proposing a new § 151.14 outlining the provisions for filing Corporate Tax amended reports. Examples in Chapter 153 have been amended with updated language. Obsolete language has been replaced throughout § 153.54. Specifically, obsolete language was removed in § 153.54(b)(1) regarding the "Report of Change form." Section 153.54(g) has been expanded to explain: (1) Corporate Net Income Tax settled prior to January 1, 2008; and (2) Corporate Net Income Tax not settled prior to January 1, 2008. In addition, an "applicability" section is added in § 153.66 to clarify that §§ 153.61—153.65 apply to taxes settled prior to January 1, 2008.

Affected Parties

The Commonwealth's corporate taxpayers and tax practitioners may be affected by the proposed rulemaking. The proposed rulemaking adds a fourth leg to what the Department has already accomplished for the education of the tax community on the changes to amended reports under Act 119-2006. The Department has: (1) added detailed language in the Instruction Booklet for Form RCT 101; (2) published a notice on the Department's web site, "Notice to Pennsylvania Taxpayers Regarding Amended Corporate Tax Reports;" and (3) participated in numerous seminars in the tax community on this subject.

Fiscal Impact

The Department has determined that this proposed rulemaking will have minimal fiscal impact on the Commonwealth.

Paperwork

The proposed rulemaking will not create additional paperwork for the public or the Commonwealth.

Effectiveness/Sunset Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*. The regulations are scheduled for review within 5 years of final publication. No sunset date has been assigned.

Contact Person

Interested persons are invited to submit in writing any comments, suggestions or objections regarding the proposed rulemaking to Mary R. Sprunk, Office of Chief Counsel, Department of Revenue, P. O. Box 281061, Harrisburg, Pennsylvania 17128-1061, within 30 days after the date of the publication of this notice in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on February 20, 2009, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Finance and the Senate Committee on Finance (Committees). In addition to submitting the rulemaking, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

The Committees may, at any time prior to the submittal of the final-form regulations, convey to the agency and the Commission, their comments, recommendations and objections to the proposed rulemaking. IRRC may, within 30 days of the close of the public comment period, submit to the agency and Committees any comments, recommendations and objections to the proposed rulemaking. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review of objections raised, prior to final publication of the amendments, by the Department, the General Assembly and the Governor.

§ 151.14. Amended report.

(a) *Applicability.* This section applies to taxes imposed by Articles IV, VI, VII, VIII, IX, XI and XV of the Tax Reform Code of 1971 and not settled prior to January 1, 2008, along with the following:

(1) Corporate Loans Tax imposed under sections 19—24 of the State Personal Property Tax Act (72 P.S. §§ 3250-10—3250-15).

(2) Co-operative Agricultural Corporate Net Income Tax Act imposed under the Co-operative Agricultural Association Corporate Net Income Tax (72 P.S. § 3420-21—3420-30).

(3) The electric co-op corporation membership fee imposed under 15 Pa.C.S. § 7333 (relating to license fee; exemption from excise taxes).

(4) Gross Receipts Tax on private bankers imposed under section 1 of the act of May 16, 1861 (P. L. 708, No. 660) (72 P. S. § 2221).

(b) *General.*

(1) An amended report may be filed by a taxpayer, on a form prescribed by the Department under oath or affirmation of an authorized officer, within 3 years after filing of the original report. An amended report may be filed for the purpose of bringing to the attention of the Department a correction to the original report or to provide additional information which the taxpayer requests the Department to consider.

(2) The Department will only consider additional information if it is submitted with an amended report. The filing of an amended report is not a new report.

(c) *Prerequisite.* An amended report will not be considered by the Department unless the taxpayer consents in writing, on a form prescribed by the Department, to the extension of the assessment period for the tax year to 1 year from the date of the filing of the amended report or 3 years from the filing of the original report, whichever period last expires. See section 407.4 of the TRC (72 P. S. § 7407.4). In addition, the taxpayer is required to maintain records until the end of the extended assessment period.

(d) *Petition rights.*

(1) An amended report does not replace the filing of a Petition for Reassessment or a Petition for Refund.

(2) The filing of an amended report does not extend the time limits for a taxpayer to file a Petition for Reassessment or a Petition for Refund.

(e) *Review of amended report.*

(1) The Department is not obligated to revise the tax due the Commonwealth upon review of an amended report. Its failure to revise the tax due the Commonwealth will not change any existing appeal rights of the taxpayer.

(2) If the Department determines an adjustment of the taxpayer's account is appropriate, it will adjust the corporation's tax on the Department's records to conform to the revised tax as determined and will credit the taxpayer's account to the extent of any overpayment resulting from the adjustment or assess the taxpayer's unpaid tax and unreported liability for tax, interest or penalty due the Commonwealth, whichever is applicable.

(f) *Amended report filed when tax liability is under appeal.*

(1) An amended report involving issues under appeal will be forwarded to the appropriate board or to the Office of the Attorney General, to be included in the appeal.

(2) If the amended report involves issues other than those under appeal, the Department may review the amended report. The review of a report does not obligate the Department to change the tax due the Commonwealth and will not change any existing appeal rights of the taxpayer. If the Department determines that a change to the tax liability is appropriate, it will adjust the corporation's tax on the Department's records to conform to the revised tax as reported. The Department will credit the taxpayer's account to the extent of any overpayment resulting from the adjustment or assess the taxpayer's

unpaid tax and unreported liability for tax, interest or penalty due the Commonwealth, whichever is applicable.

(g) *Additional information required to be provided with an amended report.* An amended report filed with the Department must contain the following:

(1) Agreement to the extension of the assessment period as described in subsection (c).

(2) The calculation of the amended tax liability.

(3) Revised Pennsylvania supporting schedules, if applicable.

(4) A complete explanation of the changes being made and the reason for those changes.

(5) A copy of the amended Federal income tax return is required if the amended report is filed due to a change in Federal taxable income based on the filing of an amended Federal income tax return. In addition, the Department may also require proof of acceptance of the amended Federal income tax return.

(6) Other information required by the Department to support the calculation of the amended tax liability.

CHAPTER 153. CORPORATE NET INCOME TAX

REPORTS AND PAYMENT OF TAX

§ 153.54. Changes made by Federal government.

* * * * *

(b) *What is required to be filed with the Department.* The following are required to be filed with the Department:

(1) A Report of Change [form (RCT 128-B)] as prescribed by the Department.

* * * * *

(d) *When a change or correction in Federal taxable income is final and received.* A change or correction will be final and received as follows:

* * * * *

Example 1. Taxpayer files a [1972] 2003 Report with the Department in conformity with its Federal Return as filed in [1972] 2003. In [1973] 2004, the Internal Revenue Service audits the taxpayer's Return which results in an increase of the taxpayer's Federal taxable income. Taxpayer does not contest this change. Thirty days after receipt of a Federal Notice and Demand for Payment, the taxpayer is required to file a Report of Change with the Department.

Example 2. Taxpayer files a [1972] 2003 Report with the Department in conformity with its Federal Return as filed in [1972] 2003. In [1973] 2004, the Internal Revenue Service audits the taxpayer's Return which results in an increase of taxpayer's Federal taxable income. Taxpayer contests this change and files a petition in the United States Tax Court. The United States Tax Court upholds the Internal Revenue Service's action. Taxpayer does not appeal the United States Tax Court's decision. Thirty days after receipt of a Federal Notice and Demand for Payment, the taxpayer is required to file a Report of Change with the Department.

Example 3. Taxpayer files a [1972] 2003 report with the Department in conformity with its Federal return as filed in [1972] 2003. In [1973] 2004, the Internal Revenue Service audits the taxpayer's return which results in an increase of the taxpayer's Federal taxable income. Taxpayer contests this change and pursues all

administrative and judicial remedies available without paying the contested amount of tax. The United States Supreme Court upholds the Internal Revenue Service's action. Thirty days after receipt of a Federal Notice and Demand for Payment, the taxpayer is required to file a Report of Change with the Department.

* * * * *

(3) A change or correction which does not increase or decrease the taxpayer's Federal tax is final when the taxpayer receives a notice from the IRS that its return will be adjusted in accordance with the examination report. The change or correction is "received" by the taxpayer on the date the taxpayer receives notice from the IRS that its return will be adjusted in accordance with the examination report.

Example. Taxpayer files a [1972] 2003 report with the Department in conformity with its Federal return as filed in [1972] 2003. In [1974] 2005, the Internal Revenue Service audits taxpayer's Federal return. The audit does not result in an increase in the Federal tax, but a change in the Commonwealth taxable income does occur due to the Federal action. Taxpayer is required to file a Report of Change within 30 days of notification by the Internal Revenue Service of its action.

(e) *More than one change or correction in Federal taxable income for a particular tax year.* A taxpayer is required to file a Report of Change for each change or correction by the Commissioner of Internal Revenue or by any other agency or court of the United States in the taxpayer's taxable income as reported to the Federal Government.

Example. As a result of a Federal audit of its [1972] 2003 Federal return, the taxpayer's Federal taxable income has been increased and the taxpayer has paid the Federal government additional tax. Since the taxpayer's Commonwealth taxable income also increased for [1972] 2003, taxpayer has filed a Report of Change with the Department. Thereafter, in a separate and subsequent court action the taxpayer contests the change in its Federal taxable income for [1972] 2003 and receives a refund from the Federal Government. Since its Commonwealth taxable income for [1972] 2003 has been decreased by this separate and subsequent action, the taxpayer is required to file a second Report of Change with the Department.

* * * * *

(g) *Report of change [within one year from the date of settlement] required to report Federal change or correction.*

(1) Corporate Net Income Tax settled prior to January 1, 2008. When a Federal change or correction in taxable income as reported to the Federal government occurs within 1 year of the date of settlement and, therefore, a Commonwealth amended report could be timely filed as provided in § 153.64 (relating to amended report), the taxpayer nevertheless is required to file a Report of Change. Filing an amended report will not satisfy the requirement of filing a Report of Change.

Example. Taxpayer files a Federal Return on March 15, [1972] 2003. Based upon that return, the taxpayer files its Commonwealth Report on April 15, [1972] 2003. In August of [1972] 2003, the IRS

discovers an error in the taxpayer's return. Taxpayer shall file a Report of Change even though the final change or correction was received within the period in which the taxpayer could file an amended report. An amended report will not satisfy the requirement of filing a Report of Change.

(2) Corporate Net Income Tax not settled prior to January 1, 2008. When a Federal change or correction in taxable income as reported to the Federal government occurs, the taxpayer is required to file a Report of Change regardless of whether or not an amended report could have been timely filed as provided in § 151.14 (relating to amended report). Filing an amended report will not satisfy the requirement of filing a Report of Change.

Example. Taxpayer files a Federal Return on March 15, 2007. Based upon that return, the taxpayer files its Commonwealth Report on April 15, 2007. In August of 2008, the IRS conducts an audit and notifies taxpayer that its Federal taxable income is different than the reported figure. Taxpayer shall file a Report of Change even though the final change or correction was received within the period in which the taxpayer could file an amended report. An amended report will not satisfy the requirement of a Report of Change.

SETTLEMENT AND RESETTLEMENT

§ 153.66. Applicability.

Sections 153.61—153.65, regarding settlement and resettlement, apply to taxes settled prior to January 1, 2008.

[61 PA. CODE CH. 53]

Clothing

The Department of Revenue (Department), under section 270 of the Tax Reform Code of 1971 (TRC) (72 P. S. § 7270), proposes amendments to 61 Pa. Code Chapter 53. "Wearing Apparel," by renaming the chapter "Clothing," amending definitions, conforming the regulation to the statute, clarifying examples and the scope in § 53.1 to read as set forth in Annex A.

Purpose of Proposed Rulemaking

The proposed rulemaking will conform to Pennsylvania law and avoid any confusion for taxpayers paying Sales and Use Taxes. In addition, the proposed rulemaking codifies legislative changes relating to clothing patterns that were set forth in Act 23-2000 (See section 204(26) of the TRC 72 P. S. § 7204(26)).

Explanation of Regulatory Requirements

The major reason for this amendment is to bring the regulation into conformity with the statute. The current definition of "wearing apparel" in § 53.1(a)(7) (relating to clothing) when read in conjunction with § 53.1(b)(3) would appear to exempt from Sales and Use Tax the service of repairing, altering, mending, pressing, fitting, dyeing, laundering, drycleaning or cleaning of accessories, ornamental wear, formal day or evening apparel, fur articles and sporting goods and clothing. (The statute in section 201(k)(4) and (o)(4) of the TRC (72 P. S.

§ 7201(k)(4) and (o)(4)) excludes from the definition of "sale at retail" and "use" the repairing, altering, mending, pressing, fitting, dyeing, laundering, drycleaning or cleaning of only wearing apparel or shoes. Although "wearing apparel" is not defined in the TRC, it is referred to in section 7204(26) of the TRC as a subset of clothing. That section provides an exemption from tax for "all vesture, wearing apparel, raiments, garments, footwear and other articles of clothing . . . but all accessories, ornamental wear, formal day or evening apparel, and articles made of fur . . . and sporting goods and clothing not normally used or worn when not engaged in sports shall not be excluded from tax." This language clearly indicates that wearing apparel is clothing since wearing apparel is followed by "and other articles of clothing." The language also indicates that accessories, ornamental wear, formal day or evening apparel, fur articles, sporting goods and sporting clothing are not clothing or wearing apparel and the sale or use of these items are taxable.

To bring the regulation into conformity with the statute, the "definitions" subsection in § 53.1(a) has been amended. "Clothing" has been enhanced to mirror language in the statute in section 204(26) of the TRC. The definition for "wearing apparel" has been deleted.

The "scope" subsection has been amended in § 53.1(b) to remove language and insert clarifying language that mirrors language in the statute in sections 7201(k)(4) and (o)(4) and 7204(26) of the TRC. Language has been added in § 53.1(c) to clarify examples of accessories, ornamental wear, formal day or evening apparel, fur articles and sporting goods and sporting clothing. The word "wearing apparel" has been deleted from this subsection.

In subsection (d), the word "patterns" has been deleted to mirror the statute as a result of Act 23-2000.

Affected Parties

Taxpayers in this Commonwealth paying Sales and Use Tax may be affected by the proposed amendment although it is believed that the repairers, alterers, and the like, of accessories, ornamental wear, and the like, have been charging Sales Tax on these services.

Fiscal Impact

The Department has determined that the proposed amendment will have minimal fiscal impact on the Commonwealth.

Paperwork

The proposed amendment will not create additional paperwork for the public or the Commonwealth.

Effectiveness/Sunset Date

The proposed amendment will become effective upon final-form publication in the *Pennsylvania Bulletin*. The regulation is scheduled for review within 5 years of final publication. No sunset date has been assigned.

Contact Person

Interested persons are invited to submit in writing any comments, suggestions or objections regarding the proposed amendment to Mary R. Sprunk, Office of Chief Counsel, Department of Revenue, P. O. Box 281061, Harrisburg, PA 17128-1061, within 30 days after the date of the publication of this notice in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 20, 2009, the Department submitted a copy of this proposed amendment to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Finance and the Senate Committee on Finance (Committees). In addition to submitting the proposed amendment, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

The Committees may, at any time prior to the submittal of the final-form regulation, convey to the agency and the Commission, their comments, recommendations and objections to the proposed regulation. IRRC may, within 30 days of the close of the public comment period, submit to the agency and Committees any comments, recommendations and objections to the proposed amendment. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review of objections raised, prior to final publication of the amendment, by the Department, the General Assembly and the Governor.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Consolidated Plan; 2008 Annual Performance and Evaluation Report

The Department of Community and Economic Development is preparing its Consolidated Annual Performance and Evaluation Report (CAPER) on the progress and accomplishments made during 2008 in implementing the Commonwealth's Consolidated Plan for Federal Fiscal Years 2004-2008. This document must be submitted to, and approved by, the United States Department of Housing and Urban Development (HUD) for the Commonwealth and organizations

within the State to receive funding under most HUD housing and community development programs. The Consolidated Plan creates a unified strategy for housing and community development programs, as well as the necessary linkages for building successful neighborhoods and communities.

The Commonwealth has allocated funds under several programs, namely: Community Development Block Grant, HOME Investment Partnerships, Emergency Shelter Grant and Housing Opportunities for Persons with AIDS. The CAPER discusses accomplishments in relation to goals and objectives identified in the Action Plan of the Consolidated Plan.

The CAPER assesses the goals and objectives of this strategic plan; how the Commonwealth is affirmatively furthering fair and affordable housing; the activities of the Continuum of Care; as well as how resources in community development and housing are being leveraged.

Citizen Comments

Individuals or organizations may provide written comments regarding the CAPER. The report will be available for review at www.newpa.com or for more information, call (717) 787-5327. Comments will be accepted about funded activities, community development, housing, the content of the CAPER and the process by which public input is gathered. The Commonwealth encourages public participation in this process.

Written comments will be accepted until 5 p.m. on March 23, 2009, and should be sent to Lauren Atwell, Department of Community and Economic Development, Center for Community Development, Office of Community Development, 400 North Street, 4th Floor, Harrisburg, PA 17120-0225.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environ- mental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person

identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Ronald S. Brezinski, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Box 147, 85 South Route 100 and Kessler Lane, Trexlertown, PA 18087 has submitted a Notice of Intent to Remediate (on behalf of his client, Lafayette College, 630 Parson Street, Easton, PA 18042), concerning the remediation of soils found to have been impacted by waste oil as a result of an accidental release from an unregulated underground storage tank. The applicant proposes to remediate the site to meet the Statewide Health Standard. The exact future use of the property is currently unknown, but it will be associated with some type of collegiate activity. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all

the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001–4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Ray Kempa, New Source Review Chief, (570) 826-2507.

66-315-054: The Procter & Gamble Paper Products Co. (P. O. 31, Mehoopany, PA 18692) for installation and operation of two additional napkin converting lines manufactured by Perini, model No. 3 to the existing converting operations for their plant in Washington Township, **Wyoming County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue a Plan Approval No. 66-315-054 to The Procter & Gamble Paper Products Co., P. O. 31, Mehoopany, PA 18692, for their plant located in Washington Township, Wyoming County. The facility currently has Title V Permit No. 66-00001. This plan approval will be incorporated into the Title V operating permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan Approval No. 66-315-054 is for the installation and operation of two additional napkin converting lines manufactured by Perini, model No. 3 to the existing converting operations. These lines will convert paper rolls manufactured at the site into napkins. Each line will contain four flexographic printing head stations with ink applicator and adhesive application system to apply decorative inks on paper napkins. Each printing station is capable of using maximum of 881 pound of decorative inks per day for printing paper napkins (maximum total of 3,524 lbs of inks per line). The company has proposed to use inks containing maximum of 1.6% of VOC by weight, which meets State BAT requirements. Water will be used as a cleanup solution. The inks and coatings used on these lines will also comply with the requirements of 40 CFR Part 63, Subpart KK. The code dater will use maximum of 14.2 lbs/day of ink with a VOC content of 99% for each napkins line. This project does not impact emissions from other sources at the site. The VOC emissions increase due to modification will be 25.7 tpy, based on a 12-month rolling sum. The company has proposed to use internally available credits to offset these VOC emissions increase.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any persons wishing to provide the Department with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown previously. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed permit No.: 66-315-054.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted based on the comments received. The persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where the Department determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, P. E., Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, (570) 826-2531 within 30 days after publication date.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a

particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated

previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is

warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person

commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Prompt Interim Response, Girardville MGP Site

Girardville Borough, Schuylkill County

Under section 113 of the Hazardous Sites Cleanup Act (HSCA), (35 P. S. §§ 6020.101—6020.1305), the Department of Environmental Protection (Department) has initiated a Prompt Interim Response action at the Girardville Manufactured Gas Plant (MGP) Site (Site). This response was undertaken under sections 505(b) and (c) of HSCA, (35 P. S. § 6020.505(b) and (c)). The Site is located along the Mahanoy Creek to the south at the intersection of North John and Oak Streets in the Borough of Girardville, Schuylkill County, PA.

The Site was used as an MGP from 1885 until dismantling began in 1928. MGP waste materials typically contain subordinate amounts of light oils (VOC materials) entrapped within the heavier tar layers. The purification stage of the gas manufacturing process typically removed much of the coal tar residue from the gas prior to distribution. However, not all of the tar materials were removed and coal tars commonly accumulated at the base of the gasholders and within the distribution pipelines leading into and away from the gasholders. Historically, the coal tar residues were generally disposed of onsite (by burial or discharge to an adjacent waterway). The Site was completely vacated by 1947 and became primarily used for recreation by the local public.

The Department initiated a site investigation through a contractor on April 2, 2003. Site work (survey, geophysics and soil sampling) began on September 29, 2003. Groundwater wells were installed in February 2004, and sampling was conducted in March and November 2004. The Site Characterization Report was finalized in August 2005. MGP site-related wastes (coal tars) containing VOCs, semi-VOCs and inorganic compounds, were found in the site soils, sediments and groundwater. Specifically, benzene and ethylbenzene were the VOCs detected in soils above regulatory standards. Also, the following SVOCs were detected in soils at concentrations above regulatory standards: benzo(a)anthracene, benzo(a)pyrene, benzo(b)fluoranthene, dibenzo(a,h)anthracene, 2,4-dinitrophenol, 2,4-dinitrotoluene, 2,6-dinitrotoluene, hezachlorobenzene, hexachlorobutadiene, indeno(1,2,3-cd)pyrene, naphthalene and nitrobenzene. The Department's contractor submitted the final Analysis of Alternatives on March 16, 2005.

The remedial action objectives at the Girardville MGP Site were to remove or mitigate potential exposure to surface and subsurface soils at the Site that contain coal tar related compounds that exceed regulatory standards and minimize the leaching, migration and offsite transport of the residual coal tar compounds contained in the soils to the groundwater, sediment and surface water media at the Site. The Department evaluated several alternatives for the proposed response action which included:

- 1) No Action.
- 2a) Excavation and Landfill Disposal.
- 2b) Excavation and Low Temperature Thermal Desorption.
- 3a) Low Permeable Cap with No Excavation.
- 3b) Soil/Asphalt Cover with No Excavation.
- 4a) Low Permeable Cap with Limited Excavation.
- 4b) Soil Cover with Limited Excavation.

Based upon an evaluation of the alternatives using criteria including protection of human health and the environment, compliance with applicable and relevant and appropriate requirements, feasibility, permanence and cost-effectiveness, the Department selected Alternative 3b as the response action for the Site. The evaluation of the alternatives is detailed in the Analysis of Alternatives document which is contained within the Administrative Record.

With reports of children digging in the areas of contamination, the Department determined that a Prompt Interim Response action was required to protect the public health and environment. Construction of the asphalt cap began on October 6, 2008, and was completed on Monday, October 27, 2008. The only work left to complete is the installation of groundwater monitoring wells. The Department will continue to monitor the groundwater and surface water to ensure the effectiveness of the chosen remedy.

This notice is being provided under 505(b) and 506(b) of HSCA. The Administrative Record, which contains the information that forms the basis and documents the selection of the response action, is available for public review and comment. The Administrative Record is available for review at the Department's Northeast Regional Office (Monday through Friday from 8 a.m. to 4 p.m.) and the Girardville Municipal Building, Schuylkill County.

The Administrative Record will be open for comment from March 7, 2009, to June 4, 2009. Persons may submit written comments into the record during this time only, by sending them to Leonard Zelinka, Project Officer, at the Department's Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18711, or by delivering them to that office in person.

In addition, persons may present oral comments, for inclusion in the Administrative Record, at a public hearing. The Department has scheduled the hearing for April 29, 2009, at 10 a.m. at the Girardville Municipal Building. The testimony at the public hearing will be limited to the Prompt Interim Response, which involved the placement of an asphalt cap over the entire Site. Persons wishing to present testimony at the April 29, 2009, hearing regarding this Prompt Interim Response should register with Leonard Zelinka before April 28, 2009, by telephone at (570) 826-5441, or in writing to Leonard Zelinka at the Department's Northeast Regional Office. If no person registers to present oral comments by the date specified previously, the hearing will not be held. Persons interested in finding out if anyone has registered and if the hearing will be held, should contact Len Zelinka.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings, should contact Leonard Zelinka or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects

caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. SPECIAL NOTICES

Request for Comment and Notice of Public Meeting Proposed Total Maximum Daily Load (TMDL) for the Watershed of Stony Run in Westmoreland County

The Department of Environmental Protection (Department) will accept comments on the proposed TMDL developed for the watershed of Stony Run in Westmoreland County. The TMDL was established in accordance with the requirements of section 303(d) of The Clean Water Act. Streams within this watershed are listed in Pennsylvania's Integrated Water Quality Monitoring and Assessment Report as being impaired due to siltation resulting from agricultural activities.

Impairments were addressed by establishing a TMDL of sediment. There currently are no State or Federal in-stream numerical water quality criteria for sediment. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. The proposed TMDL sets allowable loadings of sediment in the watershed of Stony Run. Sediment loadings were allocated among all land use categories (nonpoint sources) present in the watershed. Data used in establishing this TMDL were generated using a water quality analysis model (AVGWLF) designed by the Pennsylvania State University.

The data and all supporting documentation used to develop the proposed TMDL are available from the Department. The proposed TMDL and information on the TMDL program can be viewed on the Department's web site at www.dep.state.pa.us (PA Keyword: TMDL). To

request a copy of this TMDL, contact: Joe Boylan at joboylan@state.pa.us, or by mail at 400 Waterfront Drive, Pittsburgh, PA 15222.

The Department will consider all comments when developing the final TMDL, which will be submitted to EPA for approval. Written comments will be accepted at the previous address and must be received by April 18, 2009. A public meeting to discuss the technical merits of the TMDL will be held on Wednesday, March 18, 2008, at 6:30 p.m. in the Audion at the Derry Area High School (81 Derry Road, Derry, PA 15627).

The Department of Labor and Industry, Office of Vocational Rehabilitation (OVR), under the Rehabilitation Act of 1973, as amended in the Workforce Investment Act of 1998, announces a period of public comment on its proposed Federal Fiscal Year (FFY) 2010 Combined Agency State Plan Attachments. The FFY 2010 begins on October 1, 2009, and ends on September 30, 2010.

The purpose of this period of comment is to provide individuals, advocates and other interested parties and/or organizations opportunities to present their views and recommendations regarding Vocational Rehabilitation (VR) services for persons with disabilities. In this Commonwealth, these services are provided by OVR through a network of 21 District Offices and the Hiram G. Andrews Center (HGAC).

OVR is required, under law, to develop and implement a Combined Agency State Plan, which must be reviewed and, as necessary, revised annually when there are changes to its VR program. These revisions take the form of updates to existing attachments. The Plan currently in effect is for FFY 2009 and is a compliance document now on file with the Commissioner, Rehabilitation Services Administration and United States Department of Education. It is the blueprint for the provision of VR services to persons with disabilities living in this Commonwealth.

This period of public comment allows interested parties an opportunity to provide input regarding the Commonwealth's public VR program. Comment is being solicited regarding the following State Plan Attachments: input and recommendations of the Pennsylvania Rehabilitation Council; Comprehensive System of Personnel Development; annual estimate of individuals to be served and costs of services; OVR's goals and priorities; Order of Selection; distribution of Supported Employment Funds; and Innovation and Expansion Activities. In addition to the Vocational Rehabilitation State Plan, the agency's Bureau of Blindness and Visual Services will accept public comment on the Business Enterprise Program, Specialized Services for Children and Adults, and Independent Living Services for older persons who are blind, which are unique to their funding.

The listing is the pertinent information for the upcoming public meetings. Meeting sites are accessible and interpreters for people who are deaf or hard of hearing will be present at each public meeting. For additional information, reasonable accommodation requests or alternative format requests call the OVR District Office conducting the public meeting a person wishes to attend. If an individual or organization's representative is unable to attend a public meeting, but wishes to provide testimony, written comments may be mailed to the appropriate District Office serving the area in which the individual/organization member resides. Written comments must be received no later than 5 p.m., Monday, April 30, 2009.

Persons or organizations wishing to obtain a copy of the proposed FFY 2010 Combined Agency State Plan Attachments or other information should call the contact person listed for the appropriate District Office serving their county's geographical area.

A copy of the approved FFY 2009 Combined Agency State Plan Attachments, as well as the proposed FFY 2010 Combined Agency State Plan Attachments, will be available on the OVR web site, www.dli.state.pa.us by using "Disability Services" as the Keyword.

DEPARTMENT OF PUBLIC WELFARE

Additional Class of Disproportionate Share Payments to Qualifying Teaching Hospitals

The purpose of this notice is to announce the Department of Public Welfare (Department) is providing final notice of the establishment of disproportionate share hospital (DSH) payments to qualifying teaching hospitals that provide psychiatric services to Medical Assistance (MA) recipients. Across the Commonwealth there is a shortage of psychiatrists, notably those involved in the public health sector. The Department is working to recruit and retain psychiatrists to work in underserved rural and urban areas throughout the Commonwealth. These DSH payments are intended to help offset the medical education costs of psychiatrists incurred by the hospitals providing psychiatric services to MA recipients and the uninsured.

The Department previously published notice of its intent to distribute payments to qualifying teaching hospitals as grant payments at 38 Pa.B. 2742 (June 7, 2008). The Department received no public written comments in response to this notice. Upon guidance from the Centers for Medicare and Medicaid Services (CMS) regarding the distribution of these payments as grants, the Department revised the methodology for these payments to establish an additional class of DSH payments.

The Department will consider any psychiatric unit of a general acute care hospital enrolled in Pennsylvania MA with psychiatric medical education costs that exceed \$100,000, according to the Fiscal Year (FY) 2005-2006 MA Cost Report, eligible for this additional class of DSH payments if it meets one of the following criteria:

1. The hospital provides at least 40,000 psychiatric days of service to Pennsylvania MA recipients as reported on the FY 2005-06 MA Cost Report.

2. The hospital's inpatient psychiatric medical education costs for Pennsylvania MA recipients exceed \$500,000 as reported on the FY 2005-06 MA Cost Report.

3. The hospital's uncompensated care to net patient revenue is greater than 5.0% as reported by Pennsylvania Health Care Cost Containment Council for Fiscal Year 2007.

Payments to qualifying teaching hospitals are divided equally among all qualifying teaching hospitals.

In making these payments, the Department ensures that no acute care general hospital will receive any DSH payment that is in excess of its hospital-specific DSH upper payment limit and the Commonwealth will not exceed its aggregate annual DSH allotment.

Fiscal Impact

The FY 2008-2009, fiscal impact of this grant program is \$0.500 million (\$0.228 million in State funds).

Additional Class of Payments to Qualifying Acute Care General Hospitals for Obstetrical Services

The purpose of this notice is to announce the Department of Public Welfare (Department) is providing final notice of the distribution of funding for Fiscal Year (FY) 2007-2008 disproportionate share hospital (DSH) payments to certain qualifying acute care general hospitals enrolled in the Medical Assistance (MA) Program that provide a high volume of MA births.

There is no change to the qualifying criteria for determining eligibility for these one-time payments.

In making these payments, the Department will ensure that no acute care general hospital will receive any DSH payment that is in excess of its hospital-specific DSH upper payment limit and the Commonwealth will not exceed its aggregate annual DSH allotment.

The Department published notice of its intent to distribute funding for FY 2007-2008 DSH payments to qualifying acute care general hospitals enrolled in the MA Program that provide a high volume of MA births at 38 Pa.B. 3359 (June 28, 2008). The Department did not receive any public comments during the 30 day public comment period following the publication of the notice.

The Department is end-dating Common Procedure Terminology (CPT) procedure code 65760, defined as "Keratomileusis," from the MA Program Fee Schedule with dates of service on and after April 1, 2009. Keratomileusis is a surgical procedure in which a slice of the patient's cornea is removed, reshaped and replaced. It is performed to correct retractive error and, as such, is considered cosmetic surgery.

Section 1141.59 of 55 Pa. Code (relating to noncompensable services) sets forth that payment will not be made for cosmetic surgery except when performed to improve the functioning of a malformed body member, to correct a visible disfigurement which would affect the ability of the person to obtain or hold employment, or as post-mastectomy breast reconstruction.

Fiscal Impact

The end-dating of CPT procedure code 65760 will have no fiscal impact. There have been no paid claims for procedure code 65760 from Fiscal Year 2006-2007 to the present time.

Pennsylvania Super 7 Terminal-Based Lottery Game

Under the State Lottery Law (72 P.S. §§ 3761-101—3761-314) and 61 Pa. Code § 875.4 (relating to notice of terminal-based lottery game rules), the Secretary of Revenue hereby provides public notice of the rules for the following terminal-based lottery game:

1. *Name:* The name of the terminal-based lottery game is Pennsylvania Super 7. The game will commence at the

discretion of the Secretary and will continue until the Secretary publicly announces a suspension or termination date.

2. *Price:* The price of a Pennsylvania Super 7 ticket is \$2 per play. Additional plays may be purchased at the discretion of the player.

3. *Description of the Pennsylvania Super 7 lottery game:*

(a) Pennsylvania Super 7 is designed to give players the opportunity to win one prize in each play.

(b) For a \$2 purchase, the player gets a ticket consisting of one play containing seven different numbers ranging from 1 to 77.

(c) Players can win a prize, identified in Section 6 (relating to prizes available to be won and determination of prize winners), by matching seven, six, five, four or three of the winning numbers randomly selected by the Lottery as determined and publicly announced by the Secretary.

4. Pennsylvania Super 7 bet slip and ticket characteristics:

(a) To purchase a ticket, the player shall remit to an on-line retailer the purchase price, submit the completed Pennsylvania Super 7 bet slip or request the number selection through Quick Pick or manual terminal entry to have a ticket issued. The ticket shall consist of one to five plays, each containing one seven-number selection for each \$2 wagered, the drawing date or range of dates for which the ticket is entered, the total cost of the bet, validation number data and the annuity option or cash option selection. The purchaser of a Pennsylvania Super 7 ticket may elect to receive the winning jackpot category prize payment either as an initial cash payment plus equal annual installments over a specified term of 30 years if the annuity option was selected at the time of purchase, or a one-time cash payment if the cash option was selected at the time of purchase. On tickets containing multiple plays, each seven-number selection will be identified by a letter prefix: A for the first play printed on the ticket; B for the second play printed on the ticket; C for the third play printed on the ticket; D for the fourth play printed on the ticket; and E for the fifth play printed on the ticket. The ticket shall be the only valid proof of the bet placed and the only valid receipt for claiming a prize. The ticket shall only be valid for the drawing date or range of dates printed on the ticket.

(b) Pennsylvania Super 7 bet slips shall be available at no cost to the player. Through the use of a bet slip the player may select from one to five different seven-number selections, the number of drawings in which the number selections are played and the annuity option or cash option selection. Additionally, a player may exercise the Quick Pick option by indication on the bet slip. A \$2 wager entitles a player to play game A. A \$4 wager entitles a player to play games A and B. A \$6 wager entitles a player to play games A, B and C. An \$8 wager entitles a player to play games A, B, C and D. A \$10 wager entitles a player to play games A, B, C, D and E. Plays shall be selected in accordance with the instructions printed on the Pennsylvania Super 7 bet slip. A Pennsylvania Super 7 bet slip has no pecuniary or prize value and does not constitute evidence of the purchase of a ticket or the numbers selected.

(c) If Pennsylvania Super 7 bet slips are unavailable, the designation of the drawing date or dates for which the ticket is entered, number selections or request for the Quick Pick option and annuity option or cash option selection may be given to an on-line retailer for each play. The retailer shall manually enter the drawing date or dates for which the ticket is entered, number selections or Quick Pick selection and annuity option or cash option selection into the Lottery terminal.

(d) To purchase a ticket at a Lottery self-service terminal that dispenses terminal-based Lottery tickets, the player shall designate the drawing date or dates for which the ticket is entered, number selections and annuity option or cash option selection. The player may use a

bet slip or the Quick Pick option at a self-service terminal that dispenses terminal-based Lottery tickets.

5. Time, place and manner of conducting drawings.

(a) *Time of drawing.* A Pennsylvania Super 7 drawing will be held as determined and publicly announced by the Secretary.

(b) *Place of drawing.* A Pennsylvania Super 7 drawing will be conducted in the Harrisburg, Pennsylvania area unless the Secretary directs and publicly announces that a drawing or part of the drawing procedure will be conducted at another location.

(c) *Manner of conducting drawings.* The Lottery will select, at random, eleven numbers from 1 through 77, with the aid of mechanical devices or any other selection methodology as authorized by the Secretary. The eleven numbers selected will be used in determining winners for each individual drawing. The validity of a drawing will be determined solely by the Lottery.

6. Prizes available to be won and determination of prize winners.

(a) An amount equal to 52.19% of Pennsylvania Super 7 gross sales for a Pennsylvania Super 7 game drawing will be reserved for prizes and allocated to the winnings pool for payment of prizes as enumerated in Section 6(b) (relating to prizes available to be won and determination of prize winners). The winnings pool does not include money carried forward from a previous Pennsylvania Super 7 drawing.

(b) Determinations of Pennsylvania Super 7 prize winners for tickets correctly matching the winning numbers selected by the Lottery are:

(i) Holders of tickets upon which the player's seven numbers, in a single play, match seven of the eleven winning numbers selected by the Lottery for the drawing in which the ticket is entered, shall be the winner of the jackpot category prize.

(i) The Lottery will estimate and announce the projected annuity option and cash option amounts for the jackpot category prize prior to the drawing.

(ii) Prize money allocated to the jackpot category prize will be paid on a pari-mutuel basis. If more than one winning jackpot category prize play is determined, each, upon meeting the requirements of 61 Pa. Code §§ 875.10 and 875.11 (relating to terminal-based lottery game ticket validation and requirements; and procedures for claiming and payment of prizes), is entitled to a prorated payment share of the total jackpot category prize.

(iii) Prizes payable to the jackpot category prize winners will be paid either by an initial cash payment plus equal annual payments over a specified term of 30 years if the owner selected the annuity option at the time of purchase, or a one-time cash payment if the owner selected the cash option at the time of purchase.

(iv) If, in a Pennsylvania Super 7 drawing, there are no winning jackpot category prize plays, prize money allocated to that prize category will be carried forward and added to the amount allocated for the jackpot category prize money in the next Pennsylvania Super 7 drawing.

(v) The winner of a jackpot category prize who selected the cash option shall be entitled to the greater of the following:

(A) The announced cash option amount, divided by the number of plays in that drawing entitled to a jackpot category prize.

(B) The amount of 48.16% of the winnings pool after deduction of the fifth category prize, plus any money carried forward from a prior Pennsylvania Super 7 drawing under Sections 6(b)(2)(iv), 6(b)(3)(iv) and 6(b)(4)(iv), divided by the number of plays in that drawing entitled to a jackpot category prize.

(C) The minimum cash prize of a one-time cash payment in the amount equal to the funds that would be necessary, as determined by the Lottery, to fund an annuity of at least \$1 million if the annuity was to be paid as an initial cash payment plus equal annual payments over a specified term of 30 years, divided by the number of plays in that drawing entitled to a jackpot category prize.

(vi) The winner of a jackpot category prize who selected the annuity option shall be entitled to the greater of the following:

(A) The annuity prize as announced by the Lottery, divided by the number of plays in that drawing entitled to a jackpot category prize.

(B) The annuity prize, as determined by the Lottery, that could be funded with 48.16% of the winnings pool after deduction of the fifth category prize, plus any money carried forward from a prior Pennsylvania Super 7 drawing under Sections 6(b)(2)(iv), 6(b)(3)(iv) and 6(b)(4)(iv), divided by the number of plays in that drawing entitled to a jackpot category prize.

(C) The minimum annuity prize of at least \$1 million paid by an initial cash payment plus 30 equal annual installments, divided by the number of plays in that drawing entitled to a jackpot category prize.

(vii) For jackpot category prize payments the Secretary may elect to make payment entirely as a one-time cash payment. This one-time cash payment shall be calculated in the manner described in subparagraph (v).

(viii) The pool of funds used to pay the jackpot category prize will be increased as necessary from funds authorized for the payment of prizes to meet the payment obligations in this section.

(2) Holders of tickets upon which six of the player's numbers, in a single play, match six of the eleven winning numbers selected by the Lottery for the drawing in which the ticket is entered, shall be the winner of the second category prize.

(i) Prize money allocated to the second category prize will be paid on a pari-mutuel basis. If more than one winning second category prize play is determined, each, upon meeting the requirements of 61 Pa. Code §§ 875.10 and 875.11 (relating to terminal-based lottery game ticket validation and requirements; and procedures for claiming and payment of prizes), is entitled to a prorated payment share of the total second category prize.

(ii) The winner of a second category prize shall be entitled to a prize in the amount of 13.42% of the winnings pool after deduction of the fifth category prize, divided by the number of plays in that drawing entitled to a second category prize.

(iii) For the purposes of calculation of the prize to be paid the winner of a second category prize, the calculation will be rounded down so that prizes can be paid in multiples of \$.50.

(iv) If, in a Pennsylvania Super 7 drawing, there are no winning second category prize plays, prize money allocated from the winnings pool to that prize category will

be carried forward and added to the amount allocated for the jackpot category prize money in the next Pennsylvania Super 7 drawing.

(3) Holders of tickets upon which five of the player's numbers, in a single play, match five of the eleven winning numbers selected by the Lottery for the drawing in which the ticket is entered, shall be the winner of the third category prize.

(i) Prize money allocated to the third category prize will be paid on a pari-mutuel basis. If more than one winning third category prize play is determined, each, upon meeting the requirements of 61 Pa. Code §§ 875.10 and 875.11 (relating to terminal-based lottery game ticket validation and requirements; and procedures for claiming and payment of prizes), is entitled to a prorated payment share of the total third category prize.

(ii) The winner of a third category prize shall be entitled to a prize in the amount of 21.81% of the winnings pool after deduction of the fifth category prize, divided by the number of plays in that drawing entitled to a third category prize.

(iii) For the purposes of calculation of the prize to be paid the winner of a third category prize, the calculation will be rounded down so that prizes can be paid in multiples of \$.50.

(iv) If, in a Pennsylvania Super 7 drawing, there are no winning third category prize plays, prize money allocated from the winnings pool to that prize category will be carried forward and added to the amount allocated for the jackpot category prize money in the next Pennsylvania Super 7 drawing.

(4) Holders of tickets upon which four of the player's numbers, in a single play, match four of the eleven winning numbers selected by the Lottery for the drawing in which the ticket is entered shall be the winner of the fourth category prize.

(i) Prize money allocated to the fourth category prize will be paid on a pari-mutuel basis. If more than one winning fourth category prize play is determined, each, upon meeting the requirements of 61 Pa. Code §§ 875.10 and 875.11 (relating to terminal-based lottery game ticket validation and requirements; and procedures for claiming and payment of prizes), is entitled to a prorated payment share of the total fourth category prize.

(ii) The winner of a fourth category prize shall be entitled to a prize in the amount of 16.61% of the winnings pool after deduction of the fifth category prize, divided by the number of plays in that drawing entitled to a fourth category prize.

(iii) For the purposes of calculation of the prize to be paid the winner of a fourth category prize, the calculation will be rounded down so that prizes can be paid in multiples of \$.50.

(iv) If, in a Pennsylvania Super 7 drawing, there are no winning fourth category prize plays, prize money allocated from the winnings pool to that prize category will be carried forward and added to the amount allocated for the jackpot category prize money in the next Pennsylvania Super 7 drawing.

(5) Holders of tickets upon which three of the player's numbers, in a single play, match three of the eleven winning numbers selected by the Lottery for the drawing in which the ticket is entered shall be the winner of the fifth category prize and shall be entitled to a prize of \$2.

(c) All Pennsylvania Super 7 prize payments will be made as a one-time, lump-sum cash payment with the exception of the jackpot category prize.

(d) A winning Pennsylvania Super 7 ticket is entitled only to the highest prize won by those numbers in each play appearing on the ticket.

(e) The number of prize categories, the allocation of prize money among the prize categories and the annuity term may be changed at the discretion of the Secretary

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 645.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Environmental Quality Board Regulation #7-426 (IRRC #2735)

Long-Term 2 Enhanced Surface Water Treatment Rule; (Safe Drinking Water)

February 19, 2009

We submit for your consideration the following comments on the proposed rulemaking published in the December 20, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (Board) to respond to all comments received from us or any other source.

Section 109.1202. Monitoring requirements.—Fiscal impact; Protection of public health, safety and welfare; Reasonableness; Need.

The Philadelphia Water Department submitted comments noting research indicating “a poor correlation between E.coli and Cryptosporidium oocysts.” The research raises concerns relating to the options provided by this proposed regulation for monitoring Cryptosporidium levels in small public water systems. We recognize that this option is provided by the Federal regulations, and it gives smaller systems a less expensive alternative for monitoring Cryptosporidium. However, if it is not an effective tool for screening for possible threats from Cryptosporidium, this raises questions concerning the need for and costs of tests that do not necessarily produce reliable results. Doubts over reliability also raise public health concerns. We recommend that the Board and Department of Environmental Protection work closely with the U.S. Environmental Protection Agency in reviewing all the scientific data and bases for using E.coli tests as screening tool for Cryptosporidium.

Environmental Quality Board Regulation #7-427 (IRRC #2736)

Safe Drinking Water (Stage 2 Disinfectants and Disinfection Byproducts Rule)

February 19, 2009

We submit for your consideration the following comments on the proposed rulemaking published in the December 20, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

1. General—Possible conflict with existing regulation; Protection of the public health, safety and welfare; Economic impact.

In the Preamble, the EQB states:

The draft proposed amendments were submitted for review to the Small Water Systems Technical Assistance Center Advisory Board (TAC) for review and discussion on November 15, 2007. The TAC Board noted that the revisions are required for the Department to receive primacy and are not more stringent than the Federal rule. The TAC Board approved the proposed revisions in a letter dated December 12, 2007.

Additionally, the EQB approved this proposed regulation on August 19, 2008.

However, the Environmental Protection Agency (EPA) filed comments on this regulation and a clarification of its comments, both dated January 20, 2009. The EPA cited what it characterized as concerns related to six “major changes,” ten “minor changes” and “other changes” to the existing regulation. In light of the EPA concerns, the

final-form regulation should include an explanation of how these EPA concerns were addressed and a summary of the communications the EQB had with the EPA to make sure Pennsylvania will maintain primacy with the implementation of the final-form regulation.

2. Section 109.701. Reporting and recordkeeping.—Protection of the public health, safety and welfare; Clarity.

There are three discrepancies in this section between the regulatory package submitted by the EQB on November 24, 2008, and the publication in the December 20, 2008 edition of the *Pennsylvania Bulletin*. First, Subparagraph (a)(8)(ii) is missing a bracket, and therefore, it is unclear what language the EQB proposes to delete. Second, Paragraph (a)(9) in the *Pennsylvania Bulletin* has a missing bracket, as it appears that the EQB intended to delete (9) in its entirety and renumber (10) to (9). Finally, in Paragraph (a)(10) in the *Pennsylvania Bulletin*, the word “precursors” should not be shown in bold type.

These discrepancies may have caused confusion and impacted public comment. Ideally, a correction would have been published in the *Pennsylvania Bulletin* before the close of the public comment period. Since the opportunity for that correction has passed, the EQB should make efforts to ensure that the regulated community is both aware of the discrepancies and has had the opportunity to address any concerns before the final-form regulation is submitted.

Also, the City of Philadelphia commented that the requirement to make written reports of operational evaluation levels available to the public under clauses 109.701(g)(2)(iii)(B) and (C) could present security concerns. These reports are required to include “an examination of system treatment and distribution operational practices, including storage tank operations....changes in sources” See § 109.701(g)(2)(iii)(C). The EQB should explain how it considered security concerns in relation to this requirement and how the requirement will not make information available to the public that could be used for nefarious purposes.

**Coal and Clay Mine Subsidence Insurance Board
Regulation #7-424 (IRRC #2737)**

Mine Subsidence Fund

February 19, 2009

We submit for your consideration the following comments on the proposed rulemaking published in the December 20, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Coal and Clay Mine Subsidence Insurance Board (Board) to respond to all comments received from us or any other source.

1. Section 401.11. Eligibility for insurance.—Reasonableness; Clarity.

Subsections (d)(1) and (2) contain the phrase “to the Board’s satisfaction.” This phrase is vague and contains no direct guidance for the regulated community. What criteria will be used to determine if “satisfaction” is achieved? The Board should establish these criteria in the final-form regulation or should remove this phrase.

2. Section 401.42. Commission rates.—Reasonableness; Clarity.

This section states, “The Board will annually establish commission rates.” How will these rates be established? How will the regulated community be notified of what the annual rate is? The final-form regulation should set forth how the annual commission rates will be established and where they can be found.

3. Section 401.43. Payment of commissions.—Reasonableness; Clarity.

This section states that “[t]he Board may authorize other forms of payment.” How could one obtain this authorization? Also, what other forms of payment could be authorized by the Board? This should be included in the final-form regulation.

4. Section 401.44. Repayment of commissions.—Clarity.

Under this section, in what timeframe must an insurance producer repay the unearned commissions? This should be specified in the final-form regulation.

5. Section 401.45. Confidentiality of policyholder information.—Reasonableness; Clarity.

This section states that insurance producers must “safeguard all applicant and policyholder information and are responsible for the misuse of information that is under their control.” The term “safeguard” and the phrase “misuse of information” are vague. The regulation does not provide the regulated community a clear understanding of the expectations of the Board. In addition, the lack of clarity could lead to different enforcement standards. We recommend that this section be amended to provide more precise language that would allow the regulated community to understand what the Board expects of them and also provide a uniform standard that could be applied evenly to all insurance producers.

6. Section 401.51. Loans and grants.—Statutory authority; Legislative intent; Reasonableness; Clarity.

This section allows the Board to authorize loans and grants to entities to develop technologies, perform services or engage in other activities that benefit the fund. We acknowledge that Section 19 of the act of August 23, 1961 (P. L. 1068, No. 484) (52 P. S. § 3219) (act) provides the Board with broad rulemaking authority to fulfill the purposes of the act. However, Section 1 of the act (52 P. S. § 3201), relating to purposes, does not contemplate the issuance of loans or grants by the Board. What is the Board’s authority to provide loans or grants, and how is this consistent with the intent of the General Assembly when it passed the act?

If the Board is able to demonstrate that it has the statutory authority to provide loans and grants, we recommend that the final-form regulation include more detail on how the loan and grant program will be administered. The application process, criteria for reviewing applications and timeframes for applying for loans and grants should be included.

Parties may appear with or without counsel and offer relevant testimony and/or other relevant evidence. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives.
